

BESSER

More than Blocks

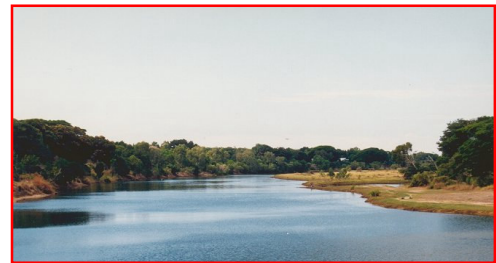

For more than 40 years, **Besser** has been a partner in developing **Townsville**

- As Queensland's leading supplier of concrete masonry, we have earned a reputation for outstanding quality and service
- We are proud to be associated with many of this region's award-winning construction and landscaping projects
- Supporting the growth of the local economy, we manufacture locally from local materials and employ local people
- We are committed to the sustainable, environmentally friendly and green development of our city

At **Besser** we understand the impact the built environment has on our natural environment.

Our experience in masonry design and construction has led to the development of a range of products that promote **environmental sustainability**.

The strength and stability offered by our Erosion Control Systems are ideal for protecting Townsville's unique environment while promoting accessibility for eco-tourism ventures.

Tri Lock and **A-Jacks** can be used in and around saltwater, and are proven to withstand strong wave forces. **Eco Monarch** and **Grass Pavers** capture water runoffs for return to the water table or storage. **Enviropave** creates access roads without environmentally damaging base materials or edging

OUTDOOR LIVING AREAS ARE PERFECT FOR NORTH QUEENSLAND
Retaining walls like this not only look great, they prevent soil erosion and add stability to environmentally sensitive areas

RELAX, ENTERTAIN & ADD VALUE TO YOUR LIVING SPACE

- Now is a great time to get started on your outdoor project
- Our range blocks, pavers, retaining walls and garden edges are designed for easy, cost effective construction

Over the next few months, **Besser** will be embarking on a strategy in Townsville to promote environmental sustainability. Our programs will focus on improving energy and water efficiency through environmental awareness campaigns, tree planting and sustainable development. We look forward to partnering the Townsville City Council as we work towards "greening Townsville".
